Title: Hamlet in Distress

Author:  
-----

Good Adventurer I am in  
need of your assistance.  
Recently a strange  
disease has over taken a  
small near by hamlet; I  
am in need or a precious  
soil that is only found on  
the Children of the Earth  
they are also known as  
Earth Elementals if you  
can procure for me 100  
of the Fertile Dirt it will  
allow me to grow the  
required medicines in time  
to save the Hamlet. I will  
reward you with a token  
of my appreciation  
when you return; You  
may contact me when you  
have the required items.
